

Simply growing... Together!

PB 7311 is one of our newer, elite conventional corn hybrids that is and will continue to prove to be a solid performer of very good, quality grain.

A great looking hybrid with wide, upright leaves and a white cob which is very attractive for those needing a good hybrid for silage.

- ✓ Good, strong, consistent top yield potential
- ✓ Tall plant type, good for ensilage
- ✓ Peak yields with top plant management
- ✓ Plant health is excellent
- ✓ Medium fast dry down
- ✓ Widely adaptable hybrid
- ✓ Stable in tough environments

#### **PROTINUS™ Seed Nutrition**

Because a healthy start can make a world of difference™.

#### **Area notes**

Great selection south of a line from Minneapolis, MN, to Milwaukee, down to the I-80 corridor and on down through Norwalk, OH to Stuebenville, OH. Great for Michigan up to and across the Lansing area to all of the MI thumb area. Also good as an early hybrid further south.
