

Simply growing... Together!

PB 8287 is a widely adapted conventional hybrid across geographic regions. It is a good dual purpose selection. It likes heat and will develop big, long ears. It is good for any soil but you may want to adjust populations accordingly for lighter, sandier soils.

- ✓ Great emergence, strong roots
- ✓ Very strong, girthy stalks
- ✓ Good plant health
- ✓ Good looking ears all along your rows
- ✓ Excellent choice for silage
- ✓ Very good test weights
- ✓ Great grain quality
- ✓ Conventional you should have in your fields

#### **PROTINUS™ Seed Nutrition**

Because a healthy start can make a world of difference™.

#### **Area notes**

Great selection from I-80 south if using for grain. If you want to select it for silage, it will work well up across a line from Madison, WI, across Lansing and the thumb area of MI.

### **PLACEMENT CHARACTERISTICS**

50% Silk GDUs	1350
Black Layer GDUs	2700
High Pop Tolerance	Very Good
Drought Tolerance	Good
Plant Health	Very Good

### **AGRONOMIC CHARACTERISTICS**

Seedling Vigor	Very Good
Stalk Rating	Excellent
Root Rating	Very Good
Plant Height	Tall
Ear Height	Medium

### **EAR AND GRAIN CHARACTERISTICS**

Ear Length	Long
Ear Flex	Semi-Flex
Kernel Rows	18-20
Dry Down	Good
Test Weight	Very Good
Yield	Very Good

### **SUGGESTIONS FOR THE BEST RESULTS**

Responds well to good crop management.

**Monsanto Company is a member of Excellence Through Stewardship® (ETS).** Monsanto products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Monsanto's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Commercial product(s) has been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Biotechnology Industry Organization.

**ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Roundup Ready® crops** contain genes that confer tolerance to glyphosate, the active ingredient in Roundup® brand agricultural herbicides. Roundup® brand agricultural herbicides will kill crops that are not tolerant to glyphosate. Roundup Ready® and Roundup® are registered trademarks of Monsanto Technology LLC. ©2011 Monsanto Company.

**B.t. products** may not yet be registered in all states. Check with your Monsanto representative for the registration status in your state.

Before opening a bag of seed, be sure to read and understand the stewardship requirements, **including applicable refuge requirements for insect resistance management**, for the biotechnology traits expressed in the seed as set forth in the Monsanto Technology Agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with those stewardship requirements.
