

Simply growing... Together!

PB 8447

114 DAY RM

PB 8447 is a yield winner. Great for both grain and silage with excellent stay green qualities. This is a strong, steady performer.

- ✓ Good for both silage and grain
- ✓ Works great in irrigated, productive fields
- ✓ Produces food grade quality grain
- ✓ Great test weights
- ✓ Moves well both north and south
- ✓ Widely adapted

Area notes

Great for southern areas from St. Joseph, MO, to Hannibal, MO, on to Springfield, IL, to Indianapolis, IN, and to Dayton, OH, and down to Ravenswood, OH.

PLACEMENT CHARACTERISTICS

50% Silk GDUs	1500
Black Layer GDUs	2975
High Pop Tolerance	Good
Drought Tolerance	Good
Plant Health	Very Good

AGRONOMIC CHARACTERISTICS

Seedling Vigor	Average
Stalk Rating	Average
Root Rating	Very Good
Plant Height	Tall
Ear Height	Medium High

EAR AND GRAIN CHARACTERISTICS

Ear Length	Medium Long
Ear Flex	Semi Flex
Kernel Rows	14-16
Dry Down	Very Good
Test Weight	Excellent
Yield	Very Good

SUGGESTIONS FOR THE BEST RESULTS

Great selection for your high yield environments
